VOL. III. NO. 4.

CHICAGO, TUESDAY, JANUARY 5, 1897.

PRICE, 5 CTS

MAY W'S EVENTFUL HISTORY.

One of the keenest youngsters of the season and to good judges the best filly of 1896 was May W. She was bred in the North Western territory, from which a lot of fast horses and horse-men with an edge have come.

May W was one of the good things of the year, for which "foxy" folks laid in waiting. Some are still stalking. The foxes amassed wealth when May W won at Milwaukee. This wealth was taken from them when she did not win at Oakley Sept. 28 last. Her race that day was one of the nasty bits of the season of 1896. After it May W was taken East with St. Jacob. Her present whereabouts are not known. The filly is said to be in hiding somewhere in the west. A well posted western horseman of high class sends DAILY RACING FORM the story of May W. It is full of interest. He writes: "There is a lot of class to May W notwithstanding the fact that she is small and that her dam was Sangaree, Lucinda's dam (a quarter horse, or a half miler) and with no known breeding. She gets away slowly, but can come home—the last quarter—in a five furlong or three-quarter race at a clip that is simply terrific. She can carry a fair weight, too, though she is small. For her inches she is superbly proportioned and loves to race. In Montana there was just one two-year-old that could beat her. That was Ogden, and I think the judges made a mistake in not setting down the boy Stewart, who rode her the day she was beaten three furlongs there. But three furlongs is not May W's distance and though the betting and the ride looked bad, Mr. Brough, after due reflection, gave the boy the benefit of the doubt on the distance ground and judged that the betting was influenced by the big bettors, who used their knowledge of the filly getting away slowly. I think that, as a rule, such things ought to be considered but in that case I always think that the benefit of the doubt ought to have gone the other way. Maloney, who has had the mare, is all right."

"In Montana she was raced by Cameron & Wentworth, two big Canadians or Scotchmen from the North Western territory or British Columbia. Both are gamblers from the word go. Cameron was the man of polish—a well dressed, fine looking fellow of good manners and smooth ways, apparently a man well-to-do and big. George Wentworth was the trainer, and, as it afterward developed, the lessee of the mare's racing qualities from Cameron, who really owned her and came along to bet on her. They made a "killing" over her first race at Anaconda, but lost most of it the day that Ogden beat her at the same place. Things went on smoothly, apparently, till the Butte meeting was over, when Wentworth, backed by Peter Hale of Butte and Barney McGinley of Anaconda respectively, started East with May W and the jumper St. Jacob, the latter owned by McGinley. Before the horses got out of the state Cameron attached May W on the cars. Hale & McGinley fixed the bonds and the mare went East. Cameron claimed that the lease to Wentworth only covered the racing season in Montana and that he had no right to take the filly East. The lease, however, did not say so and the court decided for Wentworth."

"Henry Maloney is but the trainer for Hale & McGinley and acting for them, is probably carrying out Wentworth's contract by keeping the filly till April, 1897. Maloney is a nice young fellow who has but little reputation, but is a fair horseman with either a trotter or a race-horse—a good handy man in his business. He is acting for Wentworth or his employers if the mare is put away. It is possible that in 1897 she will run in Cameron's colors. Marcus Daly did not try to buy the filly, but Wm. Gwynn, a sporting man of Butte, a friend of Mr. Daly's, did

offer \$5,000 for her the day she ran five eighths of a mile in 1:00½. People gave it out that Gwynn was acting for Mr. Daly, but such was not the case."

"MISTER" JONES AND "COL." SLOAN.

Two of the well proportioned thoroughbreds in San Francisco are Jones St. and Eddy St. Tod Sloan is inclined to be enlarged by his season's success. Jones, the successful Burns & Waterhouse jockey rather resented Tod Sloan's present idea of Tod Sloan's size and importance upon the latters injection into the California racing field. One of Master Jones' verbal ideas of the situation deserves to go on record. Said he: "I don't know 'bout this Sloan. There ain't no streets named after him. You know Eddy and Jones streets."

Master Jones is too circumscribed in his range of street nomenclature, however. It appears that Tod's fame is international and that London, Eng., has its Sloan St.

Five were second and four showed, leaving only four among the alsos. A \$10 investment on each to win would have shown a net profit of \$253 in seven days.

Our terms are \$12 a week for direct wire, or \$10 a week at office.

All the original telegrams are kept on file at room 1102, 356 Dearborn St., Chicago, Ill.

About or before January 25, 1897....

The American Sporting Manual

A YEAR BOOK AND COMPENDIUM OF RECORDS

The Manual will be: A Book for the Pocket.
A Book of Authority.
A Comely Book. A Cheap Book.

It will contain all general sporting records in use. All American Turf Records. All American Track Records. A twenty-page history of all the prize fights and boxing matches of 1896, from January 1 to December 31, 1896. Two handicap tables; one reproduced from the American Racing Manual, and a new one of even sharper application to racing, never before published.

The Manual will contain the 1896 figures of Baseball, Aquatics, Football, and Athletics in general—racing, trotting, pacing and all departments of sporting. Within The Manual's covers will be 100 pages of pure sporting figures.

The American Manual's handicap tables alone are such as have been usually sold at \$50 and \$100 each. With them are published explanatory keys and three races which have been run and to which the figures have been applied. These keys show horses, estimate of ability on past races, figures on the race to be run and their position in race to which figures were fitted.

Table No. 2 is entirely new. The track records and time estimate in the book are the result of nine months daily work of five experienced men.
